Let's pass the minimum, then we can do more with our own town zoning. We want to comply with 1,784 units. We don't want this - the 3,296 unit plan

- **They have no way to pay for it - The schools are overcrowded.**
- The traffic is untenable - Our infrastructure won't support it.
- **We're worried about our seniors on fixed incomes.**
- Worried about young families who bought during the pandemic.
- **We have no choice. We have to hit pause, so we can have thoughtful zoning.**
